

VOLUNTEER FOR YOUR COMMUNITY

ADOPT A HEDGEROW

Bio-diversity and conservation are increasingly playing a part in our lives. In order to monitor changes to our environment the Parish Council would like to record the flora and fauna that is present in our neighbourhood. We are looking for volunteers to help us with this. It would involve “adopting” a stretch of hedgerow/verge along our lanes or public footpaths where you would record the flora and fauna that you saw. Ideally you would do this on several occasions throughout the year. No great botanical knowledge is necessary, just an ability to photograph anything you don’t recognise so that it can be identified. If you are interested in taking part, please contact:
